

Some dishes aren't made of just the listed ingredients, they are made of stories...
They don't have just spices to add taste, they have culture...

Zaika-e-Nizamuddin (ZeN), as the name suggests, is the 'zaika' of Nizamuddin which has been carried forward generations after generations in this 700 year old living heritage. At ZeN, we never use preservatives or frozen ingredients in our cooking. All the products made by the women are prepared by hand, in small batches under strict hygienic and safe working conditions. There may be minor variations between batches, just like home food.

Food from ZeN not only ensures an unforgettable culinary experience but also gives you a peek into the culture of Nizamuddin and a delightful sense of contentment, packed nicely in a box of kebabs or a bowl of biryani.

You are welcome to visit our bawachi-khana anytime -- a phone call would help!
